

**Abilene Pediatric Dental**  
ASSOCIATES, PLLC.

To our valued Patients,

Considering Governor Greg Abbot's recent declaration, the American Dental Association and American Academy of Pediatric Dentistry's nationwide recommendations, Abilene Pediatric Dental Associates, PLLC. has opened its doors to all dental procedures.

For over 10 years, we have upheld the rules and regulations from our governing bodies to provide proper PPE to our employees and to uphold a clean and sterile environment for our patients. In response to the threat of the coronavirus disease, COVID-19, we have put in place policies and procedures to expand on our diligent, daily work environment.

- Our staff is fully equipped with proper PPE to serve the children of the Big Country.
- Patients will be asked to wait in the car until asked to come inside to control the number of people in the office.
- Patients and parents will fill out a pre-screening questionnaire and have their temperature taken at the door.
- We ask for only one parent/guardian to enter the clinical area per family.
- We are keeping families together within the office to meet social distancing.
- We are utilizing our office space accordingly to meet social distancing.

Our top priority is to protect the health and well-being of our patients, visitors, staff, and doctors. We believe this is the best course of action to achieve that goal.

We appreciate your understanding and cooperation in this matter and look forward to seeing our patients very soon!

Please feel free to call us with any questions.

Blessings,

Seth Ardoin, DDS

"I have set the Lord always before me. Because he is at my right hand, I will not be shaken."  
Psalm 16:8
